DBS Hall Repair Discussion.

Entire underneath portion of the City Hall is rotten, and has black mold and ants and termites. This was not discovered by DBS while they were here to formulate our estimate. They didn't go completely under the building. So once the project started that's when all the damage was discovered. Which is not what the council agreed to in the initial estimate /contract. Council would like a letter to be drafted from our attorney to go to DBS, stating we want our money back and want to go a different route. The quote is completely different now. DBS's story has continually changed.

County contacted Mayor about posts for two speed signs on Zion Harbor road. Posts are in and signs just need to be put up.
